Pest Control Tips For

- **Seal it up!** By eliminating pest entry points, we can increase the effectiveness of treatment. Plug or seal holes in foundation, around pipes, etc.
- **Keep it Clean!** Pests are looking for food, water, and shelter. Keep crumbs and food debris cleaned up, mop up standing water, and declutter.
- **In the Yard!** Pick up dog droppings daily, clean up under bird feeders, so that bird food doesn't become a food source to attract rodents, keep brush trimmed back from foundation and keep firewood away from the structure. Keep trash barrels covered, rake up leaves!
- **Hire a Pro!** You can put your best efforts in to keeping pests out, but they may show up anyway! Call **Ladybug PCS** TODAY for your free Quote!

When you do need to HIRE A PRO for pest control, call **Ladybug Pest Control Services** TODAY...
